

Look Out Point

The Look Out Point group is located near the top of the steep slope directly behind the Humphrey offices at the intersection of Route 322 and Ent road. This area was also heavily quarried during the nineteenth and early twentieth century and the slope is strewn with varying size boulders and reject stone blocks. Stahlman dedicated what he calls one of his most important groups that include Conquering, Pasgah, Beth-horon, Non-Resistance, Wonder, Overcoming and Dividing. Of these Conquering, Beth-horon and Non-Resistance are on large rocks situated on the bench at about 1400 ft elevation. Pasgah and Wonder have not been located and are probably buried beneath some heavy tree growth atop some of the nearby rocks. Overcoming is higher up on the hillside at the crest of the outcropping overlooking the valley.
